2 SIZES OF CLIPS TO SECURE ALL YOUR GLASSES

12 mm version
(Thin frames)

25 mm version
(Large frames)

Specifically designed for eyeglasses and sunglasses, Duraltag Optic is available in 2 sizes of clips to secure all your frames.

These clips, combined with the progressive patented locking system *Torque Control*, can keep the glasses safe from theft without ever risking damage to the temple.

This innovative conception allows customers to try on a pair of frames equipped with the anti-theft device without experiencing the slightest discomfort.
